---

**For Immediate Release: December 16, 2002**

After a year of tweaking, testing and revamping, we will officially roll out our new online federal procurement service/website January 1, 2003. USA Federal Procurement Officers, federal buyers and employees can now purchase **GSA Schedule Contract** and **OPEN MARKET** items, online at: [www.MyFederalShopper.com](http://www.MyFederalShopper.com).

Planned enhancements to the Shopper include adding and posting government pricing for:

- BPAs
- Veteran's Administration Schedule Contracts
- State Schedule Contracts

For your shopping convenience, we are initially offering products and services from resellers and manufacturers including, but not limited to: Brother International Corporation, Software Spectrum, CorpSoft, Avid Technology, Goldtouch Technologies, Breil Worldwide Management, iGate, IBM/Lotus, Microsoft, Symantec, Adobe, Attachmate, Proforma, Novell, Crystal Decisions, Seagate, Executive Software, Macromedia, Imgex Total Office Solutions, TAMSCO Engineering Services, Corel, ANZUS, Wynd Communications Corporation, GoAmerica, VarTech Systems, Datawatch Security Systems, Red Coats Office Cleaning Services and more.

As we promote this new service, we will recruit federal contractors to upload their GSA FSS and VA schedule contract information and government pricing, as well as any **OPEN MARKET** items they wish to offer to the federal government. A revolutionary feature of **MyFederalShopper** will allow users the ability to locate/find electronic versions of text Authorized GSA Schedule Contract Pricelists, in their entirety. All GSA contract pricelists are composed of two parts: a text version with information for ordering offices, terms & conditions, (if applicable) and GSA pricing.

**My Federal Shopper** is an EC website that offers federal buyers a comprehensive alternative to shopping on the GSA Advantage system. Anyone can browse our **Shopper**, but Federal Buyers must register before a PO can be created.

***No other existing electronic commercial or government system currently provides this scope of federal procurement pricing data. Think of it as a better GSA Advantage with Open Market items and BPAs. Or a better fedcenter.com, -only more affordable, more efficient, and more available.***

***What do Federal Buyers receive from MyFederalShopper?***

Federal Buyers will be able to quickly & easily view, print or download Authorized GSA Schedule Contracts, in their entirety with Ts&Cs, or just the sections they are interested in. Federal Buyers can also request particular contractor pricing, and we will make every attempt to satisfy your needs.

As the number of participating federal contractors participating grows, Federal Buyers can quickly zero in on the particular contractor's goods and services they are interested in without any hassle. Search engines for **MyFederalShopper** will assist in finding products and services from a wide array of federal suppliers.

When a federal procurement is initiated at **MyFederalShopper**, a PO is created with federal credit card information and transmitted directly to the seller. The buyer will receive a confirmation copy for his records and acknowledgement. It really is that simple!

Although services will be offered and listed on the **Shopper**, like the GSA Advantage system, all services must be ordered directly with contractors.

Let us know what else we can do to make this site useful and helpful for you and we will implement your suggestions where possible. Email us at **support@FBBS-GSA.com**.

Costs associated with **MyFederalShopper**

For the Federal Government: There is no charge for using **MyFederalShopper**.

For federal contractors: For schedule contracts with less than 500 schedule or open market line items, the only cost is an initial \$100 upload fee. Additional fees of \$100 per subsequent upload will occur to modify existing contract files as your schedule contract/government pricing changes.

**For Contractors - There is a 2% transaction charge for generating Open Market sales.** There is no charge for the generation and pass-through PO transmissions for any GSA Schedule transactions generated at **MyFederalShopper**.

**MyFederalShopper** will provide more information per contract and make it easier for federal buyers to get the information, goods and services they need.

**MyFederalShopper** has the means to help streamline the federal procurement process by allowing buyers to go directly to the sources they know and trust.

Please call me or email me if I can provide any more detailed information for you. We look forward to serving you in the future.

Check us out and Beta Test our system at [www. MyFederalShopper.com](http://www.MyFederalShopper.com). **Sign up today!!**

**For Beta testing purposes: When you register and try to create a mock sale, use Visa Credit card number: 4111111111111111 (four and fifteen ones) with an expiration date in the future. Tell us how to make it better for you.**

Sincerely,

Thomas M. Strawbridge  
President
